

RUDRAJIT ROY

B.Tech CSE (IoT, Cyber Security & Blockchain Technology) Student

 Asansol, West Bengal, India  +91-91268-06011  iot23.rudrajitroy.19@gmail.com  [rudrajitroy](#)

2

OBJECTIVE

Enthusiastic B.Tech CSE (IoT, Cyber Security & Blockchain Technology) student with hands-on experience in Python, Django, and web application development. Passionate about software engineering and cybersecurity, with a strong interest in developing secure, scalable, and user-focused applications. Seeking an opportunity to apply my technical knowledge, problem-solving abilities, and continuous learning mindset in a dynamic development environment.

EDUCATION

B.Tech — CSE (IoT, Cyber Security & Blockchain Technology)

Asansol Engineering College

 2023 – 2027 (Expected)  Asansol, West Bengal

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, IoT Systems, Object-Oriented Programming, Database Management Systems, Cryptography

Higher Secondary (Class XII) — Science

Santinagar Vidyamandir(H.S.)

 Passed: 2023  Asansol, West Bengal

- Percentage: 60.8%

Secondary (Class X)

Asansol Chelidanga High School

 Passed: 2021  Asansol, West Bengal

- Percentage: 89.6%

PROJECTS

Heart Disease Predictor

Python, Pandas, NumPy, Scikit-learn, Jupyter

 2024

- Built a machine learning model to predict the likelihood of heart disease using patient health data.
- Performed data preprocessing, feature selection, and model training using classification algorithms (Logistic Regression / Random Forest).
- Evaluated model performance using accuracy, precision, recall, and confusion matrix metrics.

AI Voice Assistant

Python, Speech Recognition, NLP

 2024

- Developed a voice-activated AI assistant capable of understanding and responding to natural language commands.
- Integrated speech recognition and text-to-speech libraries to enable real-time voice interaction.
- Implemented features such as web search, time/date queries, and task automation via voice input.

Social Media App Platform

Python, Django, MySQL, HTML, CSS

 2024

- Designed and developed a full-stack social media web application using the Django framework.
- Implemented user authentication, profile management, post creation, and feed functionality.
- Used MySQL for database management and designed RESTful views for core features.

Photo Album

HTML, CSS |  GitHub

 2024

- Built a responsive photo album web page using HTML and CSS for structured image gallery display.
- Applied clean UI design principles for a visually organized layout.

GT Car Racing Game

Python

 2023

- Developed a 2D car racing game using Python with real-time keyboard controls and collision detection.
- Implemented game loop logic, score tracking, and increasing difficulty levels.

Simple Calculator

Python

 2023

- Created a fully functional calculator application supporting arithmetic and basic scientific operations.
- Focused on clean input handling, error management, and user-friendly interface design.

Coding & Placement Preparation

Python |  GitHub

 Ongoing

- Actively practicing DSA problems and placement preparation exercises in Python.
- Covers arrays, recursion, sorting, searching, and algorithmic problem-solving patterns.

TECHNICAL SKILLS

Python

Java

C

HTML

CSS

Django

NumPy

Pandas

Jupyter Notebook

IoT

Cybersecurity

Wireless Networking

Machine Learning

Operating Systems

Google Cloud Platform

MySQL

PowerShell

Blender

FL Studio

Git

GitHub
